Tanya Flores understands the confusion and pain that often comes after having an abortion. After 16 years of unresolved grief, she attended an after abortion care Bible study, **Living Hope**, at **[Centerpoint Community Church](#)** in Roseville, CA. Feeling forgiven, free and living with a restored hope in life, Tanya is passionate to help other women hurting from abortion find peace and restoration. She now leads this study at Centerpoint and has become a prominent after abortion care resource for local pregnancy centers and counselors in the greater Sacramento area. Tanya also partners with **[Abortion Changes You](#)**, an online resource where all who are affected by abortion (including family members and friends) can start their healing process.

Tanya can be reached through the following website links: **[Centerpoint Community Church](#)** and **[Alternatives Pregnancy Center](#)**.
